

8th International Workshop on Web Semantics

Tuesday, 01 September 2009

Session 1 (09.00 - 11.00): Chair: Bernhard Haslhofer

Utilizing Semantic Web Technologies for Efficient Data Lineage and Impact Analyses in Data Warehouse Environments

Andreas Reisser, *Torsten Priebe* (Austria)

Personalized Handling of Semantic Data with MIG

David Camacho, *Mariano Rico*, Oscar Corcho (Spain)

Temporal Semantics Extraction for Improving Web Search

María Teresa Vicente-Díez, Paloma Martínez (Spain)

Session 2 (14.00 - 15.30): Chair: Albert Weichselbraun

Robust service-based semantic querying to distributed heterogeneous databases

Carlos Buil-Aranda, *Oscar Corcho*, Amy Krause (Spain)

RDFStats - An Extensible RDF Statistics Generator and Library

Andreas Langegger, Wolfram Wöb (Austria)

Matching Semantic Web Resources

Silvana Castano, Alfio Ferrara, *Stefano Montanelli*, Gaia Varese (Italy)

Session 3 (16.00 - 17.30): Chair: Torsten Priebe

DSNotify - Detecting and Fixing Broken Links in Linked Data Sets

Bernhard Haslhofer, Niko Popitsch (Austria)

Integrating Structural Data into Methods for Labeling Relations in Domain Ontologies

Gerhard Wohlgenannt, *Albert Weichselbraun*, Arno Scharl (Austria)

A heuristic approach to generate good-quality linked data about hydrography

Luis M. Vilches-Blázquez, Oscar Corcho (Spain)
