

Call for Papers

Workshop:

Database Technology for Data Management in Life Sciences and Medicine
(DBLM'09)

In conjunction with:

20th International Conference on Database and Expert Systems Applications (DEXA'09)

www.dexa.org

University of Linz, Austria

August 31 - September 4, 2009

Life sciences and medicine are very data intensive disciplines. Modern technologies such as micro-arrays, high-throughput mass-spectrometry, high-resolution imaging, and huge literature databases provide new challenges for scientists and medical practitioners. There has never been more potentially available information to study biological systems like cells, organs, or patients. However, it is a non-trivial task to transform the vast amount of biomedical data into useful information supporting scientific progress and/or patient management. Major challenges for research in the database community include but are not limited to:

- Data integration,
- Database-supported process management in healthcare,
- Electronic patient record,
- Data exchange in healthcare (standards and markup languages),
- Design of information systems and data warehouses for biological and medical applications,
- Mining biological and medical data: clustering, classification, rule-mining,
- Integrative mining of heterogeneous data,
- Integration of data mining primitives into biological and medical databases,
- Biological and medical image processing and -retrieval,
- Privacy in data management and data mining.

Papers must be submitted electronically in PDF format before **March 31, 2009** via the DEXA'09 ConfDriver. Papers must not exceed 5 pages in IEEE format (cf. www.ieee.org/web/publications/authors/transjnl/index.html). All accepted papers will be published in the proceedings of DEXA'09 Workshops with IEEE CSP. One of the authors of an accepted paper must register to DEXA'09 conference for paper presentation.

Organizers:

Claudia Plant, Technische Universität München (Chair)

Christian Böhm, University of Munich (Co-Chair)

Program Committee:

Elske Ammenwerth, UMIT, Österreich

Christian Baumgartner, UMIT, Österreich

Christian Böhm, LMU München, Deutschland

Annahita Oswald, LMU München, Deutschland

Claudia Plant, TU München, Deutschland

Valentin Riedl, TU München, Deutschland
Michael Seger, UMIT, Österreich
Michael Springmann, Universität Basel, Schweiz
Bianca Wackersreuther, LMU München, Deutschland
Afra Wohlschläger, TU München, Deutschland

Important Dates: Submission of Full Papers: March 31, 2009 (extended)

Notification of Acceptance: May 10, 2009

Camera-ready Copies: May 31, 2009
